Den Braven

Universal Cleaning Wipes

Cleaner for non porous surfaces

PRODUCT DESCRIPTION

Cleaner is a de-greasing cleaner for non porous surfaces.

APPLICATIONS

Cleaner was developed for de-greasing and cleaning of substrates from glass, plastics, metals, powder coated aluminium and ceramics. Removing traces of grease and mild surface contaminants. De-greasing and cleaning of paint systems, which can influence adhesion of the sealant.

DIRECTION FOR USE

By evaporation of Cleaner, the surface will cool down. This might result in condensation of moisture on the surface. Leave the surface to dry for 10 minutes after cleaning before applying sealant or adhesive to the substrate. Wipe in one direction to avoid recontamination of the cleaned surface. Replace the cleaning cloths regularly.

TECHNICAL SPECIFICATIONS

Density	30 a 35 g/m2
Frost Resistance	Up to -15°C

These are typical values

SURFACE PREPARATIONS AND FINISHING

Use a dry, clean cloth made of cotton, wool or nonwoven fabric.

PACKAGING DESCRIPTION

- Can
